Early Human Development

Subject index

Volume 55 (1999)

Abnormal cytoarchitecture; Brain development; Intrauterine growth retardation; Rat; Synthetic thromboxane A2 **55**, 125

Auditory response; Cerebral blood flow; Development; Functional MRI; Near infrared spectroscopy **55**, 229

Awakenings; Infants; Sleep **55**, 219

Baboon and fetus; Diurnal rhythms; Pregnancy; Heart rate and variability **55**, 195

Baroreceptor; Tilt; Heart rate; Infant; SIDS **55**, 265

Behavior; Breastfeeding; Preterm; Development; Mother; Observation; Infant **55**, 247

Behaviour; Human; Fetus; Body movements; Breathing movements **55**, 25

Birth asphyxia; Continuous EEG; Neurological outcome **55**, 113

Blood glucose; Diabetes mellitus; Infant feeding; Hypoglycaemia; Pregnancy **55**, 63

Body movements; Human; Fetus; Behaviour; Breathing movements **55**, 25

Body temperature; Co-sleeping; Infant thermoregulation; SIDS **55**, 103

Brain development; Abnormal cytoarchitecture; Intrauterine growth retardation; Rat; Synthetic thromboxane A2 **55**, 125

Brain perfusion and metabolism; Near infrared spectroscopy; Newborn; Hypoxia and hypercapnia; Hypotension **55**, 169

Breastfeeding; Preterm; Behavior; Development; Mother; Observation; Infant **55**, 247

Breathing movements; Human; Fetus; Behaviour; Body movements **55**, 25

Cerebral blood flow; Auditory response; Development; Functional MRI; Near infrared spectroscopy **55**, 229

Cerebral blood flow; Hypoxia; Ischemia; Shock; EEG; Newborn **55**, 237

Child; Smoking; Pregnancy; Motor skills; Mental development **55**, 137

Child care practices; Sudden infant death syndrome **55**, 149

Clinical implications; Self-organization; Neural network; Model; Fetal movements **55**, 77

Co-sleeping; Body temperature; Infant thermoregulation; SIDS **55**, 103

Congenital muscular dystrophy; Laminin $\alpha 2$ chain; Laminin 2 **55**, 19

Continuous EEG; Birth asphyxia; Neurological outcome **55**, 113

Development; Auditory response; Cerebral blood flow; Functional MRI; Near infrared spectroscopy **55**, 229

Development; Breastfeeding; Preterm; Behavior; Mother; Observation; Infant **55**, 247

Diabetes mellitus; Blood glucose; Infant feeding; Hypoglycaemia; Pregnancy **55**, 63

PII: S0378-3782(99)00031-6

Diurnal rhythms; Pregnancy; Heart rate and variability; Baboon and fetus **55**, 195

EEG; Hypoxia; Ischemia; Shock; Cerebral blood flow; Newborn **55**, 237

Electroretinogram; Sleep states; Premature; Infant; Human **55**, 51

Fetal facial cleft; Prenatal diagnosis; Three-dimensional ultrasound; Fetal tooth buds **55**, 67

Fetal movements; Self-organization; Neural network; Model; Clinical implications **55**, 77

Fetal tooth buds; Fetal facial cleft; Prenatal diagnosis; Three-dimensional ultrasound **55**, 67

Fetus; Human; Behaviour; Body movements; Breathing movements **55**, 25

Functional MRI; Auditory response; Cerebral blood flow; Development; Near infrared spectroscopy **55**, 229

Heart rate; Tilt; Baroreceptor; Infant; SIDS **55**, 265

Heart rate and variability; Diurnal rhythms; Pregnancy; Baboon and fetus **55**, 195

Heel stick; Neonatal pain; Oral glucose; Venepuncture **55**, 211

High-risk infants; Premature infants; Retrospective study; Later health status; Neonatal intensive care; Public health information **55**, 9

Human; Fetus; Behaviour; Body movements; Breathing movements **55**, 25

Human; Sleep states; Electroretinogram; Premature; Infant **55**, 51

Hypoglycaemia; Blood glucose; Diabetes mellitus; Infant feeding; Pregnancy **55**, 63

Hypotension; Near infrared spectroscopy; Brain perfusion and metabolism; Newborn; Hypoxia and hypercapnia **55**, 169

Hypoxia and hypercapnia; Near infrared spectroscopy; Brain perfusion and metabolism; Newborn; Hypotension **55**, 169

Hypoxia; Ischemia; Shock; Cerebral blood flow; EEG; Newborn **55**, 237

In utero growth characteristics; Neurodevelopmental outcome; Small-for-gestational age infants; Third trimester; Ultrasound **55**, 39

Infant; Breastfeeding; Preterm; Behavior; Development; Mother; Observation **55**, 247

Infant; Sleep states; Electroretinogram; Premature; Human **55**, 51

Infant; Tilt; Heart rate; Baroreceptor; SIDS **55**, 265

Infant feeding; Blood glucose; Diabetes mellitus; Hypoglycaemia; Pregnancy **55**, 63

Infant thermoregulation; Body temperature; Co-sleeping; SIDS **55**, 103

Infants; Awakenings; Sleep **55**, 219

Intrauterine growth retardation; Abnormal cytoarchitecture; Brain development; Rat; Synthetic thromboxane A2 **55**, 125

Ischemia; Hypoxia; Shock; Cerebral blood flow; EEG; Newborn **55**, 237

Laminin 2; Congenital muscular dystrophy; Laminin α2 chain **55**, 19

Laminin α2 chain; Congenital muscular dystrophy; Laminin 2 **55**, 19

Later health status; Premature infants; Retrospective study; Neonatal intensive care; Public health information; High-risk infants **55**, 9

Mental development; Smoking; Pregnancy; Child; Motor skills **55**, 137

Model; Self-organization; Neural network; Fetal movements; Clinical implications **55**, 77

Mother; Breastfeeding; Preterm; Behavior; Development; Observation; Infant **55**, 247

Motor skills; Smoking; Pregnancy; Child; Mental development **55**, 137

Near infrared spectroscopy; Auditory response; Cerebral blood flow; Development; Functional MRI **55**, 229

Near infrared spectroscopy; Brain perfusion and metabolism; Newborn; Hypoxia and hypercapnia; Hypotension **55**, 169

Neonatal intensive care; Premature infants; Retrospective study; Later health status; Public health information; High-risk infants **55**, 9

Neonatal pain; Oral glucose; Venepuncture; Heel stick **55**, 211

Neural network; Self-organization; Model; Fetal movements; Clinical implications **55**, 77

Neurodevelopmental outcome; Small-for-gestational age infants; In utero growth characteristics; Third trimester; Ultrasound **55**, 39

Neurological outcome; Birth asphyxia; Continuous EEG **55**, 113

Newborn; Hypoxia; Ischemia; Shock; Cerebral blood flow; EEG **55**, 237

Newborn; Near infrared spectroscopy; Brain perfusion and metabolism; Hypoxia and hypercapnia; Hypotension **55**, 169

Observation; Breastfeeding; Preterm; Behavior; Development; Mother; Infant **55**, 247

Oral glucose; Neonatal pain; Venepuncture; Heel stick **55**, 211

Pregnancy; Blood glucose; Diabetes mellitus; Infant feeding; Hypoglycaemia **55**, 63

Pregnancy; Diurnal rhythms; Heart rate and variability; Baboon and fetus **55**, 195

Pregnancy; Smoking; Child; Motor skills; Mental development **55**, 137

Premature; Sleep states; Electroretinogram; Infant; Human **55**, 51

Premature infants; Retrospective study; Later health status; Neonatal intensive care; Public health information; High-risk infants **55**, 9

Prenatal diagnosis; Fetal facial cleft; Three-dimensional ultrasound; Fetal tooth buds **55**, 67

Preterm; Breastfeeding; Behavior; Development; Mother; Observation; Infant **55**, 247

Public health information; Premature infants; Retrospective study; Later health status; Neonatal intensive care; High-risk infants **55**, 9

Rat; Abnormal cytoarchitecture; Brain development; Intrauterine growth retardation; Synthetic thromboxane A2 **55**, 125

Retrospective study; Premature infants; Later health status; Neonatal intensive care; Public health information; High-risk infants **55**, 9

SIDS; Body temperature; Co-sleeping; Infant thermoregulation **55**, 103

SIDS; Tilt; Heart rate; Baroreceptor; Infant **55**, 265

Self-organization; Neural network; Model; Fetal movements; Clinical implications **55**, 77

Shock; Hypoxia; Ischemia; Cerebral blood flow; EEG; Newborn **55**, 237

Sleep; Awakenings; Infants **55**, 219

Sleep states; Electroretinogram; Premature; Infant; Human **55**, 51

Small-for-gestational age infants; Neurodevelopmental outcome; In utero growth characteristics; Third trimester; Ultrasound **55**, 39

Smoking; Pregnancy; Child; Motor skills; Mental development **55**, 137

Sudden infant death syndrome; Child care practices **55**, 149

Synthetic thromboxane A2; Abnormal cytoarchitecture; Brain development; Intrauterine growth retardation; Rat **55**, 125

Third trimester; Neurodevelopmental outcome; Small-for-gestational age infants; In utero growth characteristics; Ultrasound **55**, 39

Three-dimensional ultrasound; Fetal facial cleft; Prenatal diagnosis; Fetal tooth buds **55**, 67

Tilt; Heart rate; Baroreceptor; Infant; SIDS **55**, 265

Ultrasound; Neurodevelopmental outcome; Small-for-gestational age infants; In utero growth characteristics; Third trimester **55**, 39

Venepuncture; Neonatal pain; Oral glucose; Heel stick **55**, 211
